Hello Moises and Ryan,

Thank you so much for making time last Friday to discuss next steps with permitting for the LANI Play Everywhere project. I wanted to follow up with this note to make sure we have a date where we can all touch base about progress is going, even if via email.

Based on our call, Moises and Ana will continue tackling the matter of the fencing in order to obtain the CD10 letter of support, while Ryan reaches out to CD10 to see what he can do to expedite that. In addition, both parties will be reaching out to their respective contacts in the Office of Beautification.

Would it be possible to provide updates on any progress by next Friday afternoon, June 8th? Let me know whether or not that's a feasible timeline—you both are more familiar with these processes than me.

Moises, please feel free to copy in your colleague on this email.

Thanks to all for your partnership on this.

Regards,

Danny Mortensen, Administrative Coordinator
